

WORKSHOP SESSION WS20: RESEARCH ETHICS OVERSIGHT IN DISASTERS & PUBLIC HEALTH EMERGENCIES

Graphic Designer . Isis Harvey

This interactive workshop focuses on ethics review and oversight of research in disasters and public health emergencies. Innovations and approaches have been advanced in order to respond to specific characteristics of disaster research and disaster research review. In this workshop, we will examine these strategies, and their merits and limitations, in relation to the distinctive ethical terrain of research in disasters and public health emergencies.

Workshop participants will include:

1. Any interested conference attendees
2. Members of the humanitarian health ethics network.

Presented By:

M. Hunt, D. O'Mathuna & L. Schwartz
